Subject: RE: MKC

Hi Joe,

I think they're mainly interested in hearing about how we plan to move forward with the company. Mike Schmoller, the WDNR PM, contacted me earlier this week regarding stormwater discharge from the site to the "rain garden" area. He wanted to let us know that he was working with his water folks to develop a PCB stormwater discharge criterion (likely non-detect). I indicated that a non-detect as a criterion would be lower than the TSCA regulatory unrestricted use standard of 0.5 ppb and we wouldn't have a problem with it. I promised we'd circle back with them to let them know of our path forward once we had internal agreement and prior to meeting with MKC.

Let me know if you have other questions.
 Pete

Hi, Pete-

We should definitely coordinate with Mike H. Do you know if there are specific concerns WDNR has about moving forward? Or are they just interested in hearing how we plan to proceed with reviewing and hopefully approving a TSCA 761 request for approval?

Thanks,
 Joe

FYI below. Perhaps after our meeting with Mike Harris next week, we can arrange to get on a call with WDNR.

Hi Pete

Darsi Foss would like to arrange a conference call between EPA and WDNR to discuss what is next for the PCB issues at MKC. Could you check on some dates that you, John Steketee and Mike Beedle are open for a call sometime in the next week or two.

I will do the same on our end.

Thanks

Mike
